

Good afternoon!

Just a quick update.

I still need a judge for the Open Costume Section - just three classes. Please let me know if you could help out with that.

Also - Morgan and I got through a lot of organizing this weekend. We sorted/organized ribbons/NAN cards (among a lot of other things!). As there are enough yellow cards, I am dividing the Chris Hess classes on Sunday into those in production prior to 12/31/76 that are regular runs, are not decorators, woodgrains, or Old Mold PAMs (see list below) AND a second class for everything else - new models, SRs, Volunteer models, etc. These classes are judged on a combination of workmanship and collectability. An additional entry fee of \$1/model is required.

A couple of small updates on classes - Class 266 is for FC Chips, and 268 for FC Pebbles.

Class 329 is for Spatter (or Splash) Dapples. I do use the terms Spatter and Splash interchangeably when describing dapples.

Please review the entrants page on the website one more time to ensure I have your correct information – day(s) you are entering, table space, if you are bringing your own table, initials, etc. I am missing some initials – I need those ASAP.

Keep an eye on the website for updates – though Morgan will try to keep the Facebook page up-to-date.

If you need to get in touch with me, please email – don't use any other means. I may not be able to get right back to you, but I'll answer as soon as I can.

Betsy
